

EXCELLENCE RESEARCH CHAIR

This document aims at providing guidance on the format to be used when submitting a scientific project to CIMI Executive Committee.

Excellence Research Chairs for renowned scientists on long-term visiting positions (6 months, 2 per year) may be funded by CIMI, or by industrial partners (as industrial chairs) on specific topics of interest at the interface between research and industry.

These chairs are the opportunity to develop high level scientific activities, including seminars, post-doctoral courses, workshops or dissemination.

The CIMI funding for an Excellence Chair over a 6 month period would take into account:

- A salary equivalent to the Collège de France Chairs, together with the cost of transport and accommodation
- The cost of the organization of various scientific activities (invited scientific experts, scientific invitations, mission expenses ...)

For a total amount up to 84 000€ covering a 6 month period

REQUESTED INFORMATION

COORDINATOR'S NAME:

EXCELLENCE CHAIR INVITEE'S NAME:

CIMI REFERRING MEMBER*:

*(either a member of CIMI Executive Committee or Prospective Committee)

Part I. Brief summary of the project (around 10 lines):

Part II. General information details:

- ⇒ Period of time and duration of the visit
- ⇒ Timeliness
- ⇒ Resume of the Excellence Chair invitee and fields of expertise : (brief CV and top 10 publications)

Part III. Full description of the project :

- ⇒ Detailed scientific programme and activities to take place during the visit (doctoral courses, conferences, workshops, interactions, dissemination, etc...)

Part IV. How is the project in line with CIMI scientific programme and objectives :

- ⇒ Interactions between mathematics and computer science
- ⇒ Expected outcomes and benefit for the community and the training activities
- ⇒ International impact
- ⇒ Potential industrial partnership
